

## HARVESTER TRUST STORY BY HILLES

PRESIDENT'S SECRETARY JOUR-  
NEYS TO WASHINGTON TO GET  
TOWNSEND'S STATEMENT.

Facts Given Show That Roosevelt  
Ordered Attorney General to  
Hold Up Proceedings Against  
Harvester Trust—Taft in Phil-  
ippines at Time.

Washington, May 17.—President Taft's secretary, Charles D. Hilles, appeared unannounced in Washington today, and at the white house gave out a statement concerning the delay in the prosecution of the International Harvester company, during President Roosevelt's administration in 1907. It was not known here that Mr. Hilles had left President Taft's party in Ohio. He went to join the president again to night.

"I have come to Washington to get United States Attorney Town-  
send's statement in reference to the Harvester trust," the statement says.

Townsend was, in 1907, one of the attorneys in the department of justice, and had made an investi-  
gation of charges against the International Harvester company.

"It showed conclusively," the statement continues, "that President Roosevelt compelled the attorney general to discontinue the harvester prosecution in the fall of 1907, 18 months prior to the colonel's retirement from office.

"President Roosevelt's term ex-  
pired two years after the matter had been placed in the hands of the prosecuting officer as the result of an investigation. It is ap-  
parent from the record that civil and criminal proceedings were about to begin, that about a year and a half before President Roosevelt went out of office, George W. Perkins took a hand in matters and that in a remarkably short time thereafter the whole matter was suppressed, strangled or put through some other device, by whatever name you call it, I have no doubt was satisfactory to the Harvester trust.

"If anybody was responsible for it besides President Roosevelt, and officials acting directly under his instructions, it does not appear in the record.

Inquiry began in 1906.  
"Mr. Townsend began his inquiry in the spring of 1906. On February 21, 1907, Mr. Bonaparte trans-  
mitted Townsend's report to United States District Attorney Sims at Chicago, instructing him to take up the matter with a view to the institution of criminal prosecution against the individuals and corporations implicated. Mr. Townsend having recommended prosecution.

"Sims wrote that the report 'proves to be correct, it is my judgment that civil proceedings can be successfully maintained against the Harvester trust,' and that probably evidence could be secured to convict the corporation and possibly a number of the individuals concerned. There was delay, of which Senator Hansbrough complained to President Roosevelt and Mr. Bonaparte wrote to the senator that the matter would receive immediate attention. An effort was made on the one hand to proceed with the prosecution; on the other hand to secure delay through a protracted investigation by the bureau of corporations.

"In his written statement Town-  
send says that in the spring of 1908 he was abruptly ordered to the Pa-  
cific coast to handle another in-  
vestigation, and therefore was compelled to drop the Harvester matter. He says:

"Attorney General Bonaparte told me the reason why I had not been authorized to institute the Harvester trust suits. Shortly after I left Washington, in the spring of 1907, the Harvester trust people in some way learned of my report, and asked permission of Attorney General Bonaparte to file a written statement by way of defense. Mr. Bonaparte considered this statement (of the Harvester trust) not only insufficient by way of defense, but as a direct admission of all the essential facts, showing a violation of the anti-trust law.

"Perkins Influenced Roosevelt.  
"Shortly afterward Mr. Perkins, (the organizer of the Harvester trust) called upon Mr. Bonaparte, in company them on a visit to Presi-  
dent and I think Cyrus H. McCormick. They requested Mr. Bonaparte to accompany them on a visit to Presi-  
dent Roosevelt for the purpose of persuading the president to refrain from prosecuting the harvester trust. Mr. Bonaparte refused to do so, on the ground that the written state-  
ment filed by the harvester trust, was, in effect, a confession of a violation of the law and therefore he (Mr. Bonaparte) would not stultify himself by temporizing with the subject in any manner. Thereafter Mr. Perkins and Mr. Smith (and I think Mr. McCormick) went out and interviewed President Roosevelt, and succeeded in persuading him not to prosecute the harvester trust, and shortly thereafter President Roosevelt instructed Attorney General Bonaparte not to take action.

"Attorney General Bonaparte gave me this explanation for the purpose of assuring me that he had not intentionally broken his word with me in the matter of authorizing or refusing to prosecute the harvester trust. Mr. Bonaparte plainly indicated to me that he was offended because the recommendations of the

## TAFT CALLS BOSSSES BY NAME

PRESIDENT IN OHIO SAYS BROWN  
AND HANNA ARE FOR ROOSE-  
VELT.

Argues That Colonel Is Inconsistent  
in Dividing Bosses and Patriots—  
Says Candidates Accept Support  
of Those Who Give it Without Ask-  
ing For Certificates of Character.

Toledo, Ohio, May 17.—President Taft adopted new offensive tactics against Col. Roosevelt today.

In practically every one of his fourteen speeches he made, the president used an argument of particular interest to Ohio and to the northern part of the state, bringing in continually the names of Dan R. Hanna of Cleveland and Walter Brown of Toledo, two leaders of the Roosevelt movement. The president called Mr. Brown "the only boss now in active commission in the state," and charged that Mr. Hanna "with unlimited wealth" was allied with the special interests, but yet he was recognized by Mr. Roosevelt as a patriot, not a boss.

"Mr. Roosevelt has introduced the issue of the bosses. He says that I am the candidate of the bosses, and he is against them all, and they are all against him. You have right here in northern Ohio the only man who is in full commission as a boss, Walter Brown of Toledo, and he is backed by Dan Hanna, who is associated with all the great interests in northern Ohio, and they own three news-  
papers. Now, that makes a fine col-  
lection, doesn't it? Three great met-  
ropolitan newspapers, a man with unlimited wealth associated with all the great special interests, and a boss to represent them in politics.

"And yet Mr. Roosevelt says Mr. Brown is a patriot and a progressive. I am not attacking Mr. Roosevelt because Mr. Brown supports him. He is just like me and just like any other person in politics. He takes the support of any man who comes to him, without asking him for a certificate of character from the Young Men's Christian as-  
sociation."

Aside from this, Mr. Taft's state-  
ments were of the same tenor as on previous days of the present trip. In the morning he ran out of Cleveland into a mild rainstorm, but by noon the weather was again fair and bright. The crowds that met the president were up to the average of the trip.

Mr. Taft made his last speech of the day here tonight.

harvester trust people had appar-  
ently more weight with the president than his own recommendations and advice.

Mr. Hilles then refers to Col. Roosevelt's declaration that none of the papers in the harvester trust case ever were suppressed and re-  
views the recent presentation of some of the papers to the senate. The statement then continues:

"These papers show that the har-  
vester trust was about to be prosecuted for rebating, but promised to do better which promise was satis-  
factory to the attorney general. Other trust, probably not of the har-  
vester trust, were fined for rebat-  
ing and had to settle in the courts.

Suppressed Papers Quoted.  
"The suppressed papers show also that George W. Perkins was referred to as the representative of the 'far-  
reaching Morgan interests' and that Mr. Perkins said to Commissioner Smith that if the harvester trust was to be attacked, the Morgan interests were going to fight," whereupon Mr. Smith wrote to President Roosevelt that it is very practical question whether it is well to throw away now the great influence of the so-called Morgan interests."

President Roosevelt had sent the report to Attorney General with these directions:

"Please do not file the suit till I hear from you."  
"Col. Roosevelt met the damaging disclosure by saying that Mr. Taft as a member of the cabinet, had advised the action that subsequently was taken. He was alleged that if his memory served him, Mr. Taft's investigation for the prosecution.

ADD HARVESTER CASE.  
"The records of the war depart-  
ment were then introduced by Presi-  
dent Taft to show that in the fall of 1907, during the full period of the correspondence, he was absent from the country in the Philippines and elsewhere. Col. Roosevelt then shifted his ground and said that Presi-  
dent Taft approved the suppression of the suit after his return, in Janu-  
ary, 1908.

"This last charge is disproved by the record, which shows that on November 7, 1907, (Mr. Taft was out of the country from early in September until late in December, 1907). Herbert Knox Smith, the commissioner of the bureau of corporations, telephoned Mr. Perkins, at the presi-  
dent's order, that the president took the view that the harvester invest-  
igation should come before the suit.

"Why then would the matter be brought before the cabinet for seri-  
ous discussion in January, 1908?"  
"If it was brought before the cabi-  
net in January, then Mr. Perkins had a 'scoup' of sixty days on the presi-  
dent's confidential advice.

## FRAUD AND FORCE COLONEL'S PHRASE

ROOSEVELT SAYS CHICAGO CON-  
VENTION WILL NOT BE SO  
CONTROLLED.

Speeches Friday He Frequently  
Connected Names of Taft and Lor-  
imer—Charges That President's  
Ideas of Friends of Constitutional  
Government in Control Means  
Stifling of Peoples Wishes.

Columbus, O., May 17.—President Taft's theory of constitutional govern-  
ment, Col. Roosevelt said here to-  
night is that it is "a government ad-  
ministered by Messrs. Lorimer, Gug-  
genheim, Barnes, Gallinger and their like, in defiance to the will of the people, that it is a government under which the people are defrauded of their rights by these men."

The former president said that Mr. Taft was mistaken in asserting that the success of the cause for which he stands now seems assured. The Chicago convention, he continued, "will not be controlled by fraud and force."

These statements were made by Col. Roosevelt in his speech tonight at Memorial hall. The building was filled to its capacity. During the day the Colonel traveled across Southwestern Ohio.

"I came into this fight," he said tonight, "only because it had become evident that unless I did so there was not the slightest chance of any progressive winning the Republican nomination. The reactionaries recognize this clearly. As a matter of fact they are not primarily for Mr. Taft at all. Every Republican in Ohio who votes for any man except myself is strengthening the action-  
ary cause."

Yesterday Mr. Taft said that he thought he would win the nomina-  
tion, because he believed the Chicago convention would be recognized by friends of constitutional government. I ask you to remember just who these 'friends of constitutional govern-  
ment' are, upon whom Mr. Taft relies. They are his campaign man-  
agers, Mr. McKinley; Mr. Lorimer, of Illinois; Mr. Penrose from Penn-  
sylvania; Messrs. Guggenheim and Evans from Colorado; Mr. Gallinger from New Hampshire; and Mr. Barnes from New York and Mr. Keating from Indiana. So I could go on indefinitely.

"When Mr. Taft says that the Chi-  
cago convention will be controlled by the friends of the constitutional govern-  
ment, he means that it will be controlled by men such as Messrs. Lorimer, Barnes and Penrose, and by the delegates fraudulently seated from states like Washington, where they would be avowedly seated not because they represent the people but because they do not represent the people. Mr. Taft is mistaken. The Chicago convention will not be controlled by fraud and force in this manner. The attempt so to control it will be unsuccessful, and if suc-  
cessful it would merely mean the ruin of the Republican party."

"I hope you will remember from now on, just what Mr. Taft means by constitutional government. He has shown it in this utterance I have quoted."

"Mr. Taft's theory of constitution-  
al government is that it is govern-  
ment administered by Lorimer, Gug-  
genheim, Barnes, Gallinger and their like, in defiance to the will of the people and imposed by them on the people; that it is government under which the people are defrauded of their rights by these men. He be-  
lieves that these men to the ex-  
clusion of the people should be given the guardianship of the constitution which the people themselves made to protect their own interests against just such men and to secure justice for themselves and for all men."

## FINE IMPOSED ON JUDGE OWENS

Is Adjudged Guilty of Contempt of  
Court and Ordered to Pay \$500—  
Like Amounts Assessed Against  
Police Officials.

Chicago, May 17.—County Judge John E. Owens was fined \$500 today by superior court Judge M. F. McKinley for contempt of court in violating the superior court injunction restraining the county judge and his assistants from interfering with the Cook county Democratic convention.

Fines of the same amount were ordered by Judge McKinley for Chief of Police McWeeny, Assistant Chief Schmettler, Sheriff Michael Zimmer and Election Commissioner Carney, while the cases of Police Captain Lavin and Sergeant Malone were continued.

The trouble grew out of the Demo-  
cratic convention of April 15, when the police battered in the doors of the Seventh Regiment Armory. Judge Owens placed the convention under the charge of the election com-  
missioner and Judge McKinley en-  
joined this action, which order was ignored by the Hearst-Harrison fac-  
tion. The injunction was secured by the Sullivan faction of the Demo-  
crats.

LICHTY IS PRESIDENT.  
St. Louis, May 17.—Geo. M. Lichty of Waterville, Ia., was elected presi-  
dent of the National Wholesale Grocers' association at the last ses-  
sion of the annual convention here today.

## LAFOLLETTE WANTS FULL PUBLICITY

Expects Statement From Roosevelt  
About Alleged Million Dollar Fund  
—Perkins, Garry and Hanna  
Named as Contributors.

Chicago, May 17.—Senator Robert LaFollette of Wisconsin arrived here today on his way from California and stopped long enough to say that he was headed for Ohio to take part in the primary campaign.

The senator was said to have con-  
fided to some of his friends that he would start his campaign at Bowling Green, Ohio, and that one of his principal attempts would be to seek enlightenment regarding the origin of the funds used in the presidential candidates' campaigning.

Senator LaFollette, it is reported, is determined to call on Col. Roose-  
velt to publish a list of contributors to his campaign funds. Reports have reached the Wisconsin senator that a \$1,000,000 fund, largely contributed by Geo. W. Perkins, E. H. Garry and Dan R. Hanna, is furnishing the means for the Roosevelt campaign, and he desires to have an authoritative statement as to the source of the money which is being spent.

"I am going to submit to the peo-  
ple a statement showing where each cent spent in my campaign comes from and I shall insist that Col. Roosevelt be equal yeandid," said the senator.

## RAILROAD MANAGERS MAINTAIN THAT NO STRIKE OF FREIGHT HANDLERS IS IN PROGRESS.

Chicago, May 17.—After P. J. Flannery, president of the local freight handlers' union had an-  
nounced today that a general strike throughout the country would be called by the International officials of his organization tomorrow, a futile attempt was made by three disinterested men to induce the railroad managers to arbitrate the trouble with the Chicago strik-  
ers.

The three men, Fred Sterling of Rockford, secretary of the state board of arbitration; P. M. Powell of Peoria, a member of the same organization and E. R. Wright, president of the state federation of labor, called on W. A. Garrett, chairman of the General Managers' association and offered to use their influence to bring about a settlement of the dispute.

"The railroads do not recognize that there is a strike in progress," Mr. Garrett said. "All the freight houses are working full forces. There is nothing to arbitrate."

President Flannery to insist said the situation had not changed since he made his announcement and that a general strike appeared inevitable.

## PANAMA BILL DEBATED.

Washington, May 17.—The house debated the Panama canal adminis-  
tration bill all day and at night session until 11 o'clock. There will be two hours of debate tomorrow and the bill then will be taken up for amendment under the three-minute rule.

The debate today centered about the proposal to give to American ships free passage or low tolls. Some contended the Hay-Pauncefote treaty prevented that.

## TAFT USED PLAIN WORDS IN OHIO

TOLD TOLEDO AUDIENCE HE  
GREW TIRED OF BEING LIED  
ABOUT.

Called Roosevelt Tariff Views  
Ridiculous and Said Former  
President in Seven Years Never  
Tried Tariff Revision—Gave  
Reasons For Opposition Brown  
and Harmon.

Toledo, O., May 17.—"I've got tired being lied about and held up to the country as having violated every rule of conduct when I am not conscious that I have violated any," President Taft said here tonight, in the course of a speech to a crowd that filled every available seat and blocked the aisles of the auditorium. Mr. Taft's speech was one of the most plain spoken and bitter that he has made since he began "to answer" the charges of Colonel Theodore Roosevelt, and to use hot shot of his own.

The president charged that Walter Brown of Toledo, one of the Roose-  
velt leaders here, had ceased to be a Taft supporter because the president refused to accept his recommendation for judicial appointments.

He declared that the opposition to him on the part of Dan Hanna of Cleveland came as a consequence of indictments against Mr. Hanna by the Taft department of justice.

His appeals to the crowd for a square deal and his attacks of Mr. Roosevelt were cheered enthusias-  
tically.

It was the most demonstrative gathering Mr. Taft has addressed on the present trip.

The president's unusual bitterness toward Mr. Roosevelt was apparent from the first. He launched im-  
mediately into accusations of unfairness upon the part of his predecessor that caught the fancy of his hearers and brought forth many bursts of cheering and hand-clapping.

"The memory of the names Mr. Roosevelt has called me," the presi-  
dent said, "still lingers in my ears. Since the time he began his personal attacks on me he has used all the epithets he could think of and all the names in the calendar such as no president has ever been subjected to by a man who has had two terms in that office."

Mr. Taft called the tariff views of Mr. Roosevelt ridiculous and labeled his "scheme" for a tariff that would make a division of profits between the laborer and the employer "catch penny" phrases.

"Neither Mr. Roosevelt nor any-  
body else," the president declared, could ever draw such a bill. He was in the white house seven years and never even tried to revise the tariff."

Coming to Ohio and to Walter Brown the president said:

"I have had Walter Brown's sup-  
port in the past and it was effective but Walter Brown and I differed about judicial appointments and I thought I knew more about them than he did.

"Mr. Hanna was indicted under the rebate law and after that date the Cleveland Leader and all his papers turned against me.

"It lies in Mr. Roosevelt's mouth to say that I am tied up with the interests, when the evidence that has been brought out in the har-  
vester and steel trust cases and also right in Ohio where he stands."

Mr. Taft for the first time flatly charged Mr. Roosevelt, his campaign manager, Senator Dixon and Demo-  
cratic senators prevented the ratifi-  
cation of the peace treaties as they originally were put before the sen-  
ate.

"What am I afraid of," said the president, "is the danger that you and the whole country will be blurred in your vision of the true issues by Mr. Roosevelt's attacks on me, and that men will go on voting for Roosevelt because they believe what he says of me, and forget the danger that lies in putting him in the white house for a third term."

## LEWIS MADE RECORD SCORE.

Auburn Man Broke 148 out of 150  
Targets at Sportsman's Meet.  
Peoria, Ill., May 17.—Bart Lewis of Auburn, Ill., made the record score of the 150 target event in the final contest of the thirty-sixth annual tournament of the Illinois closed here today by breaking 148 targets. Lewis also finished with high average in the three days' money-back events with a count of 440 targets out of a possible 450.

O. T. Hall of Loami, Ill., won the Clark diamond golf trophy by break-  
ing 40 straight targets after being first in the event with Jess Barker of this city. J. Graham of Chicago won the amateur 50-target championship event with a perfect score. A. H. Aman, of Peatone, won the professional 50 bird championship with a count of 49.

## JUDICIAL FUNCTION FURNISHED THEME

ATTORNEY GENERAL WICKER-  
SHAM ADDRESSED LAW ALUM-  
NI OF PENNSYLVANIA U.

Characterized Proposition to Submit  
Judicial Decisions to Vote of Peo-  
ple Spirit of Impatient Reform—  
Says Idea is Suggestive of French  
Revolution.

Philadelphia, May 17.—"It is the spirit of the impatient social reformer of the French revolution, not the spirit of Anglo Saxon freedom, which advocates these strange departures from our national traditions and our national institutions," declared Attorney General George W. Wickersham tonight before the law alumni of the University of Pennsylvania in an address on the "Judicial Function," when he referred to the proposition that decisions be submitted to the arbitrament of popular election.

"That the rights of all the people can be advanced by destroying the independence of the judiciary, making their already brief tenure sub-  
ject to the uncertainty of momentary popular favor and subjecting the decisions resulting from the careful consideration of nice questions of relative public and private welfare in the light of constitutional provisions, to the arbitrament of popular election is," he said, "one of those strange delusions difficult for any student of law and history to comprehend."

"Most of the recent specific criti-  
cisms of the judiciary has arisen out of decisions concerning the constitu-  
tionality, under state or federal con-  
stitutions, of legislation passed in the exercise of the police power for the real or ostensible purpose of protecting the health and safety of the people or of correcting social and economic injustice.

"The function of the judiciary with respect to such laws seems to be strangely misunderstood and grievously misrepresented.

"Certainly law books will be searched in vain to establish the contention recently promulgated that the courts have power to declare such laws unconstitutional, 'not only when they violate specific clauses of the state constitution, but also when members of the court regard the act as contrary to their ideas of social justice.'"

"The only power which courts of a state have or have ever claimed in this country over such laws is to determine whether or not they conflict with provisions in the state or federal constitution. Almost all the state constitutions embody a declaration of those fundamental rights to life, liberty and the pursuit of happiness and against deprivation of property without due process of law, which are found in magna charta, the bill of rights, and the declaration of independence.

"It must be apparent that one of the highest of the judicial functions is to determine whether under the constitution of a state, or within the rights safe-guarded to the citizen by the constitution of the United States, acts of the legislature, passed in pursuance of well meaning, sometimes wise and sometimes unwise efforts to amend the constitution, are in fact reasonably related to a purpose which it is competent for the government to effect, or on the other hand, constitute arbitrary and unreasonable legislation, exacting from the citizen not directly benefited by it a freedom of state action national govern-  
ments are established to secure."

"The question presented for the consideration of every citizen today is whether the exercise of this delicate function, upon the right management of which is dependent the continued enjoyment of all that we value for the security of life, property and the rights of every citizen, can best be entrusted to the judiciary, to be exercised in the future as in the past; or whether the constitutional barriers shall be prostrated before an unrestrained popular election."

"Mistakes have been made by the judiciary, cases have been wrongly decided, and the extension of legal principles to meet new conditions under judicial interpretations and con-  
struction has often been slower than impatient reformers, desirous of immediate results, would wish. Yet, no candid critic can say that, on the whole, the history of the American judiciary does not furnish as high, if not a higher example of adequate results than that of any other branch of the government."

## SLUGGERS ARRESTED.

Chicago, May 17.—The men who are believed by the police to have been touring Chicago in an automobile, emptying newsstands and wagons, burning newspapers and beating newsboys since the beginning of the newspaper strike were arrested today.

The automobile party of sluggers has terrorized many newsboys.

## "DARK HORSE" FOR CHAIRMAN.

Chicago, May 17.—The sub-  
committee of arrangements for the National Republican convention arrived to night to select a temporary chairman for the convention.

Despite the suggestion of a num-  
ber of names for that office to day and to night, certain members of the committee intimated that the probable choice of the committee would be a man whose name has not been listed as a possibility up to this time.

## DEBS IS NAMED FOR PRESIDENCY

WILL HEAD NATIONAL SOCIALIST  
TICKET AGAIN THIS YEAR.

Emil Seidel is Party's Choice For  
Vice-presidency—Party on Record  
as Opposed to Violence as a Weapon  
For Labor Classes—Sharp Per-  
sonalities Exchanged During De-  
bate on This Question.

Indianapolis, Ind., May 17.—En-  
gauge Victor Bens of Terre Haute, Ind., was nominated last today as a candidate for the presidency of the United States by the national Socialist convention.

Emil Seidel, former mayor of Milwaukee, was chosen for vice-presi-  
dent.

John Harriman of California and Duncan McDonald of Illinois were nominated for the presidency, but declined to let their names stand.

The only other business of the convention was the adoption of a section of the constitution which places the party as taking a decided stand against "violence as a weapon of the working classes."

The section was not adopted until after several hours of debate, which many times ran into personalities.

The section was opposed by the "direct election" forces, who have been expounding the cause of the Industrial Workers of the World, and was favored by the so-called "yellow" or conservative faction in the party.

Bernard Berlyn of Chicago in speak-  
ing in favor of the section, related his experience in Colorado, where he was sent into various sections which he said were "regarded as unhealthy for Socialists, and concluded by say-  
ing:

"I would go to hell if told to make a Socialist speech there."

He violence did not gain in the working classes anything.

Congressman Victor L. Berger of Milwaukee declared those who opposed the section belong with Emma Goldman and are trying to hide behind "political action."

"There is no bridge between Socialism and Anarchism," he said. "Those who stand for 'political action' are not for the bomb throwers and the dagger wielders. The trouble is, there are anarchists in the party who are trying to hide under the guise of the Industrial Workers of the World."

While the vote was being tabulat-  
ed, the delegates broke into singing Marsellaise and "The Red Flag."

Many delegates stood upon the tables cheering and singing, and the demonstration was kept up for several minutes.

## RAIL STRIKE THREATENED.

Detroit Team Will Refuse to Play  
Until Cobb Is Re-instated.

Detroit, Mich., May 17.—A News  
special from Philadelphia says that the Detroit American league players have refused to play another game after today unless "Ty" Cobb, indefinitely suspended yesterday for his battle with a spectator at a recent New York game, is reinstated. A telegram to that effect, signed by all the players, has been sent to President Ban Johnson.

## JENNINGS CORROBORATED STORY.

Philadelphia, May 17.—Manager Hugh Jennings of the Detroit club corroborated the story telegraphed from Detroit about the threat of the club's players to strike unless Cobb is at once reinstated. Jennings declined to comment on the situation or to state his attitude on the strike question.

## No Comment From Johnson.

Albany, N. Y., May 17.—President Johnson, who is on his way en route from Boston to Cincinnati said tonight he could say nothing about the attitude of the Detroit ball players until he had the matter come before him in proper form. Johnson said he was a spectator at the game at which Cobb assaulted a "fan" in the

### MRS. GARMAN WINS SUIT AGAINST WAVERLY

Is Awarded Damages of \$2,845—Demurrer in Tribune Damage Cases Overruled.

In the circuit court Friday the jury which heard the evidence in the suit of Mrs. Malinda Garman against the City of Waverly returned a verdict in favor of Mrs. Garman for \$2,845. The case was heard at a previous term when a verdict for \$2,500 was rendered and the defendant city took an appeal to the appellate court, when the case was remanded for trial. It is understood that meanwhile Mrs. Garman offered to settle for \$1,200, but the defendant declined the offer. The case will probably go to the appellate court again.

In the damage suit of Joseph De Goveia and Simeon Fernandes against the Chicago Tribune Co., the defendants, by their attorneys Kirby, Wilson & Baldwin limited their appearance for the purpose of a plea as to the jurisdiction of the court. Bellatti, Barnes & Bellatti, for the complainants, entered a demurrer to the plea and the demurrer was overruled. The situation is that a jury or the court without a jury by consent must decide as to whether Joseph Estaque is an authorized agent of the Tribune Co. within the meaning of law. If he is declared to be such an agent, then the Tribune company must enter a defense to the damage suits.

Docket entries made Friday by Judge Thompson and grand jury findings were as follows:

Peoples Cases.

People vs. John Williams, larceny. Ignored by grand jury.

Same vs. Roland Harney, burglary. Same order.

Same vs. Pete Haxton, larceny. Same order.

Same vs. Jesse Ratcliff, larceny. Same order.

Same vs. Ed. Ratcliff larceny. Same order.

Same vs. John Wright, larceny. Same order.

Same vs. Jesse Wildy, larceny. Same order.

Same vs. Pete Weldy, larceny. True bill reported.

Same vs. Charles Dally and Leo Thompson, assault with deadly weapon. Ignored.

Same vs. J. E. Decker and William Hale, burglary and larceny. True bills reported. Decker was released on \$1,000 bond and Hale on \$500 bond.

People vs. Samuel Crutchfield, larceny. True bill reported.

Same vs. N. Kelly, assault with deadly weapon. Ignored.

Same vs. Jerome Thomas, larceny. True bill reported.

Same vs. W. Gray, larceny. True bill reported.

Chancery.

Hattie M. Pulliam vs. Charlotte B. Dew et al, partition. Leave to complainant to amend. Appearance of defendant at United States court entered in writing. Default of other defendants. Cause referred to master.

Alice M. DeLess vs. Irwin DeLess, divorce. Default and decree for complainant.

Ethel M. Wells vs. Harry Wells, divorce. Suit dismissed by complainant.

Mary Black vs. Wroe Black, divorce. Motion to quash overruled. Leave to defendant to answer by May 27.

Emil Hagel vs. Mrs. Kate Brown et al, foreclosure. Motion by complainant for receiver and J. W. Jackson appointed bond \$200.

Alex Van Winkle vs. G. E. Bonds, foreclosure. Masters report approved and decree.

Josephine Butler vs. Smith Butler, divorce. On complainants motion order of default set aside and leave to complainant to amend.

THE WEATHER.

The temperature for Friday, according to G. H. Hall, weather observer at Alexander, was: Maximum 68, minimum, 43.

### MOSCOW BAY LODGE.

The new bungalow of the Moscow Bay company has been completed and furnished. Quite a large party of members of the company, accompanied by their wives, attended the dedication of the building, the opening day, and enjoyed a fish dinner, with all that could possibly be served with it. Speeches were made by F. L. Sharpe, J. J. Reeve, P. J. Andrews, J. Z. Scott, Charles Franz, Leo P. Albright and others of the company. Cards and fishing were enjoyed in the afternoon and an animated debate participated in by the ladies on the question: "Would you accompany your husband on a fishing trip on Sunday if he invited you?" The question was left unsettled because of lack of time to finish the arguments.

The company now boasts of one finest lodges for its size on the Illinois river and has ample accommodations for twelve to fifteen people. The kitchen is most complete and every part of the house furnished with a new outfit. The porch, 12x30, closely screened, is one of the features of comfort and will make a great lounging place. Fishing promises to be splendid and members are already beginning to reserve their time for the use of the bungalow with the secretary.

There is an art in Blending Coffees. Just mixing them won't do. It's something like making a salad dressing. You mix several ingredients of an entirely different nature together and the result is a delicious blend. ## PLATFORM REPORTED.

Lake Mohonk Conference in Platform Expresses Gratitude to Taft For Services.

Mohonk Lake, N. Y., May 17.—The platform reported today by the executive committee of the Lake Mohonk conference on international arbitration for adoption was in part as follows:

"The eighteenth Lake Mohonk conference on international arbitration expresses its profound gratitude to the president of the United States for his illustrious service for the cause of international peace in the effort for the arbitration treaties with Great Britain and France. We believe that the president in this memorable effort, represented the great popular sentiment of the American people, and deploring the defeat for the moment of his high purpose we call upon the people for unremitting endeavor to secure early conclusion of treaties of equal or broader scope with the great nations of the world.

"It is preeminently the duty of the United States to maintain strong leadership in this commanding cause. We record with satisfaction the recent ratification by the senate of the United States of the Declaration of London which makes it possible to establish the international prize court and on the eve of the creation of the committee to prepare the program for the international conference, we urge such broad and advanced American action as shall contribute to secure the most efficient basis of organization and procedure for this and future conferences; the adoption of a general treaty, the marked development of the international court, and united action for the limitation of armaments.

"We emphasize anew the need of earnest efforts everywhere for such a public opinion as shall compel the powers party to the Hague conventions to respect the same in letter and spirit and to resort to no hostilities until all possible means of peaceful settlement are exhausted."

Other planks express the gratification of the conference at the prominent place given arbitration on the program of the coming international congress of chambers of commerce and at the "inspiring evidences of the broadening cooperation of the world's peace workers" given by the presence of many foreign representatives at the present conference.

## STOP WALK ON CREVASSE.

New Orleans, La., May 17.—After elaborate preparations had been made to close the Hymella Crevasse, 35 miles above New Orleans on the west side of the Mississippi river, the forces of the federal government suddenly stopped work and Captain Cosherill chief of the United States engineers returned to New Orleans.

Notwithstanding that the plan to close the crevasse, which threatens the destruction of upwards of \$30,000,000 worth of property, has been approved by all of the state, federal and civil engineers and the Mississippi river commission has adopted a resolution favoring the appropriation of \$100,000 for one half of the expenses, there is a serious hitch somewhere.

## LAFOLLETTE DENOUNCES T. R.

Bowling Green, O., May 17.—Senator LaFollette arrived here tonight in time to address a large audience, which awaited his arrival. He denounced Theodore Roosevelt for not vigorously enforcing the Sherman anti-trust law at the beginning of his administration, saying that then there were only 149 criminal conspiracies in violation of the statutes, representing corporations capitalized at less than a billion dollars, but that these open violators of the law had increased to more than 10,000 representing of more than \$31,000,000,000 before the end of the Roosevelt administration and now it is practically impossible for any president to attempt to crush the trust without injury to legitimate business.

"It is no job for a rough rider with a big stick," he exclaimed, using for illustration the case one must take in the matter.

"Mr. Taft is too amiable for the job," he said. Senator LaFollette will leave early tomorrow morning for Columbus, Ohio.

The Treble Clef club and the orchestra are also deserving of especial mention and the entire program showed the quality of musical education that is being taught in the high school.

Miss Frances English, a graduate of the high school with the class of 1909, was heard in two pleasing readings entitled "The Automobile Ann," by Warner, and "Carls," selected. ## LECTURED ON HIS ALASKAN TRAVELS

Dr. Arthur D. Black of Chicago Addressed Large Audience at Public Library Friday Evening.

At the public library, Friday evening, in the presence of two hundred people, Dr. Arthur D. Black of Chicago, gave a very instructive lecture on Alaska, which was illustrated with stereopticon views in colors.

Last August Dr. Black, in company with his father, Dr. G. V. Black of Chicago and Drs. George Williams and L. B. Hooley, of Seattle, Wash., traveled through the Yukon mining district of Alaska, the entire trip consuming five weeks. Their travels took them through Denver to Seattle, from which port they sailed on board the "Princess May" for Skagway, Alaska, where they took the Yukon railroad to White Horse. This was the farthest point north that they visited and their return trip took them through the mining districts to Sitka, and thence back to Seattle. The lecture was illustrated with a large number of stereopticon views in colors, the greater number of the photographs being taken by Dr. Black, while a few of them were made from postcard pictures which he secured on the trip. He showed pictures of several glaciers, icebergs, snow-capped mountains, Alaskan lakes, the White Pass, miners at work, the salmon industry and of several of the cities visited. These photographs were very clear and realistic and were in natural colors.

Dr. Black's lecture, in part, follows:

"It was our intention to take the steamer 'Spokane,' but that ship was wrecked the year before and we sailed on board the 'Princess May,' going up through Puget Sound between the mainland and Vancouver Island, and around through Lynn Canal to Skagway. The most dangerous feature of this boat trip, around Vancouver Island is the tide and there is hardly a ship that does not go on the rocks at least once during a trip. As the water is shallow, it is not a hard matter to beach a ship and take off everyone on board so that the loss of life is comparatively small.

"It was in going through this body of water that we saw the first Totem pole of our trip, although we saw a great number of them before we returned. I had always supposed that a Totem pole was a sort of family tree, but I was very much mistaken. The Indians of the north have different clans; very much similar to our lodges in this country, and the Totem poles are the emblem of the clans. The first city we visited was Prince Rupert, which was built by the Grand Trunk Pacific Railway company in a number of rocky hills. They have blasted out the rocks to make the streets level and to give you an idea of the value of real estate, building lots in the business district sell for as high as six and seven thousand dollars.

"The next city along the route was Juneau, the capital of Alaska, and we saw the famous Treadwell mine near there. We then entered the Lynn Canal, along the banks of which the beautiful snow-capped mountains present an untiring scene. On our trip through this canal we saw our first glacier.

"We landed at the city of Skagway, the terminus of the Yukon railroad, which was built during the great rush to the Yukon mining fields. One would think that the short seasons and the extreme cold weather would prevent the growth of vegetation, but we saw sweet peas about five feet high, bearing blooms twice the size of those in this climate, geraniums that were eight feet in height and pansies that were about four inches across."

Dr. Black then showed a number of scenes along the Yukon railroad, which gave an idea of the difficulty in building this road through the White Horse Pass, where so many people lost their lives during the rush to the gold fields, scenes at White Horse, the head of navigation for the Yukon mining, and also of placer mining. Among the scenes near Sitka were those of an old Greek church, an old Russian blockhouse, an active glacier discharging enormous icebergs, a native church on Annette Island and several views of the salmon industry. On the return trip Glacier was visited and he showed a number of views of that city and the glacier near.

At the close of the lecture Very Rev. J. W. Crowe, a member of the library board, arose and said that he considered it entirely proper that a vote of thanks be extended to Dr. Black for his lecture, which was so interesting and given in such an excellent manner.

Commencement exercises at the University of Illinois will be held on Wednesday, June 12, and will be of special interest to the residents of this city and of Morgan county as the memory of one of Jacksonville's long time and honored citizens will be brought prominently before the present generation.

Mrs. Mary Turner Carriel of this city is in receipt of notification of the special exercises for that day, which is as follows:

"In recognition of the fact that this is the fifth anniversary of the passing of the land grant act of 1862, out of which grew the University of Illinois, a special program will be prepared in connection with the commencement exercises of the present year.

"The President of the University, Dr. Edmund J. James, will deliver an address on the Life and Work of Jonathan T. "It is hoped that the Governor of Illinois, Hon. Charles S. Deneen, will be present and will deliver an address upon the Function of Land Grant Colleges."

Miss Effie Epler of 1106 West State street, has issued invitations to a card party to be given at her home Wednesday afternoon. The party is in honor of her sister, Mrs. Carrell Camblorn, who is here visiting from Washington, D. C.

A class of ladies of the Sunday school of Ebenezer church, of whom Miss Ella Blackburn is teacher, executed a happy surprise on Charles Black, who is assistant teacher of the class. Several days ago Mr. Black suffered a broken leg in an accident and the members of the class conceived the idea that it would be pleasant to make him a visit. They took along plenty of good things to eat and the afternoon was spent in a social way, music being part of the program. It is needless to say that Mr. Black will never forget the visit of his estimable neighbors.

## ILLINOIS WILL MEET MILLIKIN

Athletes of Two Institutions Gather at Decatur Today in Track Meet—Close Contest Expected.

Judging from the splendid showing Illinois college made against Carthage college in a dual meet here last week, and the close meet held between Millikin university and Wesleyan college, in which Wesleyan won by a score of 57 to 51, the dual track meet between Illinois and Millikin at Decatur today promises to be one of the fastest track events of the season. Coach Harmon has had his men in splendid training and believes he can win the meet. Millikin is also equally confident of victory.

In the person of Jaccard, who can pole vault 11 feet 3 3/8 inches, Millikin will find a worthy foe, and Berry will show the J. M. U. fellows how to throw the hammer away. Berry can whirl the lead over 131 feet and the best the Millikin man can do is 127 feet. Illinois also looks good in the mile, 120 yard low hurdles, discus throw and running broad jump.

Millikin is strong in the dashes. Tenison being their particular bright star. Both he and Jaccard of I. C. made the 10 yard dash in 10 2/5 seconds. Smith of Millikin is reported fast in the low hurdles, covering the distance in 26 seconds flat. Millikin is also sure of the high jump, Belknap have left the air a distance of 5 feet 7 1/2 inches. To a man up a tree it looks as if Illinois will split even with Millikin in first places and win a majority of seconds, although at all odds it will be close.

Coach Harmon has announced the following entries:  
100 yard dash—Jaccard and Selfkin.  
220 yard dash—Jaccard and Alford.  
440 yard dash—Selfkin and Alford.  
880 yard dash—Alford and Smith.  
Mile run—Smith and Stark.  
120 hurdles—Buchelt and Alford.  
220 hurdles—Buchelt.  
Pole vault—Buchelt and Jaccard.  
Running broad jump—Buchelt and Jaccard.

Running high jump—Morrison.  
Shot put—Prins and Berry.  
Hammer throw—Prins and Berry.  
Discus throw—Prins and Berry.  
The Illinois men will leave over the Wabash this morning. The management at Millikin expect to run off the meet and have a game of baseball with Bradley Polytechnic school the same afternoon. Millikin has announced that they will play Illinois in baseball on June 3.

## PIANO RECITAL

Miss Lois Baptiste and Miss Hazel Belle Long, Assisted by Mrs. Mae Cannon Appear in Superb Program.

Music lovers of Jacksonville were given a rare treat in the piano recital, which was given Friday evening at the First Baptist church by Miss Lois Baptiste and Miss Hazel Belle Long, pianists, assisted by Mrs. Mae Cannon, soprano. Miss Baptiste and Miss Long were former pupils of the Illinois College of Music and are now studying and teaching in the Peoria Musical college.

The ability of these musicians is so well known in the city that any comment on their efforts seems unnecessary. The work of Miss Baptiste was indeed very brilliant. Her technique is solid and her tonal variety and coloring is seldom equalled. She possesses the full uses of all the resources of the piano and gives her selections that touch which characterizes the real artist. Especially was she praiseworthy in the Schumann "Sonata," the Chopin "B Flat Minor" and in the Liszt "Hungarian Rhapsodie."

Miss Long was very pleasing in her numbers. She plays with precision, good technique and has a fine command of tone volume and in the art of melody displays much talent. The Polish dance "Cracovienne Fantastique," by Paderewski, was given a splendid rendition and in the Schumann "Papillons" she was afforded a wide opportunity to show her interpreting powers. The last composition is one of Schumann's earlier works, set in twelve short pieces. Mrs. Mae Cannon, who possesses a voice of lyric quality and of excellent tone, was heard in "Dearest Night," by Bachet. She is a pupil of Mrs. Hartmann. Miss Mildred Weaver, who was to have been the accompanist, is suffering from an injury to a finger. Her place was acceptably filled by Mrs. Lucy D. Kolp.

The program follows:

## A WOMAN TO BE PRETTY

Must Have Luxuriant and Glossy Hair,  
No Matter What Color.

The finest contour of a female face, the sweetest smile of a female mouth, lozenge something if the hair is crowned with scant hair. Scant and falling hair, it is now known, is caused by a parasite that burrows into the scalp to the root of the hair, where it saps the vitality. The little white seedles the germ throws up in burrowing are called dandruff. To cure dandruff permanently, then, and to stop falling hair, that germ must be killed. Newbro's Herpicide, an entirely new result of the chemical laboratory, destroys the dandruff germ, and, of course, stops the falling hair, and prevents baldness. Sold by leading druggists. ## Healthy Mothers

Women who bear children and remain healthy are those who prepare their systems in advance of baby's coming. Unless the mother aids nature in its pre-natal work the crisis finds her system unequal to the demands made upon it, and she is often left with weakened health or chronic ailments. No remedy is so truly a help to nature as Mother's Friend, and no expectant mother should fail to use it. It relieves the pain and discomfort caused by the strain on the ligaments, makes pliant and elastic those fibres and muscles which nature is expanding, prevents numbness of limbs, and soothes the inflammation of breast glands. The system being thus prepared by Mother's Friend dispels the fear that the crisis may not be safely met. Mother's Friend assures a speedy and complete recovery for the mother, and she is left a healthy woman to enjoy the rearing of her child. Mother's Friend is sold at drug stores. Write for our free book for expectant mothers which contains much valuable information, and many suggestions of a helpful nature.

## MARKET CONDITIONS

Business Situation Favorable in Spite of Unseasonable Weather.

New York, May 17.—R. G. Dan & Co.'s Weekly Review of Trade will say tomorrow:

A part from the backwardness of the season, the business situation on the whole maintains its recent favorable aspect. The most significant movement is that in the iron and steel trade, in which the west reports are of an expanding demand with premiums being offered in some instances for prompt delivery. Although there is considerable competition in the drygoods market that the weather has been unfavorable for the retail distribution of seasonable merchandise, values of cotton goods hold generally steady, and in woollens an advancing tendency is noted in a number of lines. In cottons, trade in domestic staples is steady, but seasonably light. Drills and sheetings are firmer than print cloths or the fine convertibles. Staple gingham are firm and tickings, denims, chevrons and shifting chambrays are being ordered moderately. In dress goods markets the volume for business being rendered for fall or staples is satisfactory. Woollen yarns are firm and spinners of cotton yarns hold prices at a high level.

The backward weather conditions coupled with the strong advances which are demanded by shoe manufacturers have restricted business in footwear. In leather pronounced strength continues to rule. Sharp advances have again occurred in about all varieties of hides, especially packer stock.

New York, May 17.—Bradstreet's tomorrow will say:

Nature's forces have been unpropitious over a wide area of the country, and as a result trade has been adversely affected. The weather was too wet or too cold—in some cases positively too cold—for seasonable activity in retail lines, which branch of distribution should now be in full swing. This situation has in turn been reflected in decreased buying from wholesale dealers and jobbers and there has been little or no re-order business. At the same time country trade is quiet for while farmers have not been in a mood to do much spring work they have not been in a mood to make even ordinary purchases. It is felt, however, that retail dealers' stocks are not burdensome, and that warm settled weather will produce better results and enable some of the lost ground to be recovered.

Business failures in the United States for the week ending May 16 were 212 against 260 last week, 235 in the like week of 1911, 225 in 1910, 219 in 1909 and 201 in 1908.

**WHY HE WAS SO LATE.**  
"What made you so late?"  
"I met Smithson."  
"Well, that is no reason why you should be an hour late getting home to supper."  
"I know, but I asked him how he was feeling, and he insisted on telling me about his stomach trouble."  
"Did you tell him to take Chamberlain's Tablets?"  
"Sure, that is what he needs." Sold by all dealers.

## As "Ed" Howe Sees Life

With lovers flattering the women, and politicians flattering the people, we are all writhing in the agony of nonsense.

Most stories of heroism are invented to teach us bravery we are unable to learn.

If you are able to protect yourself, and not buy, it is worth while to hear a good agent talk; he is so smart.

Everyone who gives away that which costs nothing, is too liberal, and gives away too much.

A man must make an occasional bad guess or quit talking.

When a compliment is plainly exaggerated, it makes you feel smaller than ever.

Every man has great respect for his Will Power until he gives it a fair test, and it fails him.

Liberty sometimes becomes an antagonist of civilization. In many of the most disastrous years, liberty has been the battle cry on both sides.

When there is a war, the voters become private soldiers, and the politicians officers.

## STATE EPWORTH LEAGUE.

Illinois Convention to Be Held at Centralia on June 27-30.

The state convention of the Epworth league, which is to meet June 27-30 at Centralia, promises to be one of the best ever held. The policy of varying the location at times puts the convention at difficult points to reach. This year's location is all that can be desired, as Centralia is one of the best railroad centers in South Central Illinois. This naturally means an increase in the matter of attendance. Another item of interest regarding the location is that it is practically on the line of two conferences.

The program committee has been hard at work and the general points of the program are practically settled. Professor D. B. Townner, of Moody Institute, will lead the singing, and will be assisted by a chorus choir and pipe organ and piano. Professor Townner is a master and the best of music is assured.

The foremost speaker of the convention will be Bishop Quayle. He has the reputation of being the greatest speaker in the Methodist church. The bishop speaks the first night, and will probably stay over for the next day.

Dr. Sheridan, of Kansas City, pastor of one of the largest churches in Methodism, is another of the speakers. Dr. John F. Harmon, president of McKendree college, will be another.

The committee has given much thought in building the program to the idea of conferences on the different departments of work. These have become very popular in Epworth league conventions, as it enables those particular lines. Indications point to an exceptionally large attendance of the most prominent district and local workers from Chicago to Cedar and the outlook for the convention is excellent.

Don't be surprised if you have an attack of rheumatism this spring. Just rub the affected parts freely with Chamberlain's Liniment and it will soon disappear. Sold by all dealers.

Jacksonville testimony proves it reliable.

## A FINE TRIBUTE.

Fred DeFries, has a Los Angeles paper of a recent date which contains a highly eulogistic article regarding Rev. R. F. Thrapp. The paper has four portraits of the reverend gentleman in various pulpits attitudes and then goes on to speak of his sermon which was on the subject of the opportunity to build up the highest type of civilization on the globe.

As was to be expected the gentleman dealt strongly on his subject without bitterness but with earnestness and in a manner which arrested the attention of all who heard him.

The paper spoke of the prominent part Mr. Thrapp had taken in civic affairs in this state and paid him a fine compliment generally.

There are people in this town who unthinkingly neglect a "mere cold" although they would not otherwise expose their children or themselves to danger. Yet a cold neglected may develop into contagious diphtheria, bronchitis or pneumonia. Use Foley's Honey and Tar Compound promptly for its stops coughs quickly and cures colds. It contains no opiates and is safe for children. City Drug store, J. A. Obermeyer.

## PARENT-TEACHER REPORT.

The Jacksonville Parent-Teacher association will meet at the high school at 3 o'clock this afternoon. Mrs. E. P. Clary and Mrs. A. E. Adams will give a report of the mothers congress which they recently attended in Chicago. Mrs. A. G. Burr will make an address on the Gary, Indiana, schools. The subject of the play ground movement will be considered. All interested in these matters are urged to attend the meeting this afternoon.

## TO DEDICATE CHURCH.

Tomorrow the newly erected Christian church at Virden will be dedicated and quite a number from this city are to attend. A reception will be given to the public on Thursday evening and the ladies of the church will be the hostesses on that occasion. An interesting literary and musical program has been arranged with Miss Rachel Plowman as chairman of the committee in charge. Among those taking part in the program are Mrs. W. E. Thompson, Miss Emma Everts and Lloyd Jones all of Virden and Mrs. Gregory Clemmons and Mrs. Julian Hall of Jacksonville.

## QUICK RELIEF FOR RHEUMATISM.

George W. Koon, Lawton, Mich., says: "Dr. Detchen's Relief for Rheumatism has given my wife wonderful benefit for rheumatism. She could not lift hand or foot, had to be lifted for two months. She began the use of the remedy and improved rapidly. On Monday she could not move and on Wednesday she got up dressed herself and walked out for breakfast. Sold by L. P. Alcott, druggist."

## JUDGE GRIER HERE.

Judge Robert J. Grier arrived in the city yesterday and spent some time calling on a number of gentlemen and making their acquaintance. The judge, as is well known, is a candidate for the supreme bench of the state and is a gentleman well qualified. He made an excellent impression on all whom he met and is a man who will command the respect of all who know him. He will be here today.

## The Fountain Head of Life Is The Stomach

A man who has a weak and impaired stomach and who does not properly digest his food will soon find that his blood has become weak and impoverished, and that his whole body is improperly and insufficiently nourished.

Dr. PIERCE'S GOLDEN MEDICAL DISCOVERY makes the stomach strong, promotes the flow of digestive juices, restores the lost appetite, makes assimilation perfect, invigorates the liver and purifies and enriches the blood. It is the great blood-maker, flesh-builder and restorative nerve tonic. It makes men strong in body, active in mind and cool in judgement.

This "Discovery" is a pure, glyceric extract of American medical roots, absolutely free from alcohol and all injurious, habit-forming drugs. All its ingredients are printed on its wrappers. It has no relationship with secret nostrums. Its every ingredient is endorsed by the leaders in all the schools of medicine. Don't accept a secret nostrum as a substitute for this time-proven remedy of known composition. Ask your neighbors. They must know of many cures made by it during past 40 years, right in your own neighborhood. World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N. Y.

**MORNING EYE-OPENERS.**

The Chicago White Sox and the New York Giants seem to have every thing there own way so far. You can't tell how it will end can you?

When news of Washington's win over St. Louis was posted last night fans were anxious to learn if Akers had officiated. Johnson was the winning pitcher. It is probable that Jerry will officiate either today or Monday. No Sunday games are played in the east.

It has been a long time since the Sox were so aroused and it is the great work of the Sox that is doing it. The crowds that surround the ballparks boards every night are unanimous in their belief that Callahan's team is not playing beyond its true form and is going to make a run away of it.

The news that Kankakee was to take over the Clinton franchise has been discredited by the latter city. Fans have come to the rescue and the game will continue there, for a game at least. The horrible weather of the past several days has played hob with the scheduler in the minor league ranks.

Noah Henline is going fine with Troy in the New York State league. He is hitting in form and fielding up in the nine hundreds. This will be pleasing news to his many friends in this section. A more popular player than Noah never played in these parts.

Old Captain Anson just can't keep out of the game. He is reported to be organizing an Indian team with himself as first baseman. Old Anse always was something of an Indian when it came to swinging the club. He deserves success and we wish him all kinds.

Garland Bush is reported to have made good as umpire in the big league. He has been paired with Klem since the opening of the season and that is a big help to him as Klem is about the best of the lot since O'Day has taken to management.

Ralph Keltz failed to hold his job with the White Sox and has been sold to the Sacramento club of the Pacific Coast league. Red Kuhn is doing most of the back stopping for the Sox now that both Black and Sullivan are on the injured list. The latter is recovering rapidly and will soon be back in the game.

The Cubs are plugging along as best they can. Chance is willing to keep up his courage and claims that with Brownie once more in form and Tinker back at short the Cubs will at once strike their gait and stay up among the leaders. Maybe so. But at present it looks like there is nothing to the National's pennant race except New York.

Detroit is going bad. Cobb is in the worst possible humor and is banished from the game and handed a direct fine and suspension by President Johnson for jumping into the stands and thrashing a spectator at one of the games in New York. It is said that he wants to play first base and is otherwise in ill repute with the rest of the team. Jennings seems to be losing his grip and it looks as if it were all day with the once mighty Tiger hosts.

Don't that spurt of the Reds surprise you? On the level, there is nothing mysterious about it. Clarke Griffith left Cincinnati in possession of the nucleus of a formidable team and O'Day is simply reaping the benefit of Griffith's nerve wrecking labors. The Reds' new stars are to be dedicated today and there will be a great time over the Rhine in consequence. Ben Johnson and Comiskey traveled all the way from Boston to be present at the ceremonies.

What's the matter with the local ball tossers? Isn't it about time that we were treated to a game? The Illinois college boys have enjoyed a monopoly of the game so far. Hedgecock has been in great form this season and the little set back at St. Louis will not affect his record much. Surprise was expressed at the loose holding of Goodwin and Bucher; who have been most reliable so far. However the best of men have their off days. Harmon deserves lots of credit for the fine showing of I. C. B. hoped that the alumni can get together and give the present youngsters a taste of defeat. The old timers have some real players in their ranks and know the game. Let us have that game.

Illinois College Loses to Rolla School of Mines by Score of 1 to 2.

A despatch to the Journal from Rolla, Mo., tells of the defeat Friday of the Illinois college baseball nine, by the Rolla School of Mines, by the close score of 1 to 2. Both teams scored four hits a piece and the game was errorless except for one bobble by Illinois. Goodwin pitched for the locals and considering his comparative newness in the box got away with his game in grand style. Illinois will play their second game with Rolla this afternoon.

The Missouri school has one of the strongest teams in that part of the state. Last year they played four games with Illinois, two of the games being 12 innings, and the teams split even for honors.

Dennie, who has been the coach for Rolla, has accepted the position next year of the St. Louis university.

Wheat—Heavy liquidation and stop loss selling was again the chief factor. Overnight margin calls brought out much long stuff from belated holders. Weather and crop reports were mainly good except from soft wheat sections, where destruction was nearly complete. Statistical news was moderately bearish. Argentine shipments exceeding the estimate at 3,378,000, against 2,720,000 a year ago. Minneapolis stocks, however showed a decrease of 1,836,000 bushels for the week. There has been a heavy liquidation and there will probably be more of this, but many weak holders have gone out and a considerable short interest has been created in both July and September. Still further reaction may be expected as a considerable portion of recent 20c advance still remains. The general situation has many elements of strength, still we believe there will be many opportunities to operate successfully on the long side in near future.

Corn—Liquidation, wheat weakness and favorable reports of plowing and planting broke prices sharply. May corn recovered considerably of its break of yesterday at opening and regained some of its standing aside from this bull manipulation nothing in the immediate future to justify the expectation of any big corn advance. Argentine shipments are heavy, 2,665,000 this week against none last year. Export demand for the balance of the season cannot be hoped for. While planting has been delayed, there is still plenty of time and the abundant wheat area and scarcity of corn crops will make for an enormous corn area, with the possibility of a record breaking crop. July and September corn have recently had 4c to 5c break and some good rallies can be looked for. Still we are strongly of belief that July corn will have to bear the burden of a heavy movement after planting and feel that sales made on hard spots will show good profits.

Oats—Suffered further under raiding by room traders. Scattered liquidation also depressed prices. Oats have saw a very good break and an anxious short interest has been created among professionals. Short acreage, exhausted stocks of old oats the late season and many complaints of losses due to extreme wet weather are still bullish factors which cannot be overlooked. The general break in all markets has had a demoralizing influence, from which it may take time to recover, but we believe September investments are justified and believe that old stocks will be well depleted before harvest shows up.

Provisions—Further pressure on lard and ribs broke prices. Local longs have sold freely and the local demand has come from shorts. Cargis receipts are moderate, but the market acts heavy.
